

*Setting up 6 ft. diameter piece for facing work in horizontal boring mill*

*MMW reverse engineered and machined from a solid workpiece for recycled plastics shredder*

*MMW "Ironmaster" portable rebar bender / shear completely manufactured by MMW*

*MMW Precision machined cam shaft*

*MMW Precision reverse engineered components for bottling plant equipment*

*MMW fabricated / machined parts for bottling operation*

*MMW reverse engineered reel spool bearing housings for paper machine*

### **Some of OUR Clients:**

- Original Equipment Manufacturers ▪
- Pulp / Paper / Forest Products ▪
  - Food & Beverage ▪
  - Water Treatment ▪
  - Power Generation ▪
- Mining & Aggregate ▪
  - Textiles ▪
  - Plastics ▪

*Line boring of large bearing housings on aggregate jaw crusher*

*The BEST PEOPLE  
manufacture the  
BEST PRODUCTS!*

### *OUR SERVICES:*

- Complete Machine / Job Shop
- Engineering Design
- Reverse Engineering
- Specialists with "In-Place" Machining
- Fabrication / Welding
- Contractor Services
- Exclusive Manufacturer of the "Iron master" Rebar Bend & Shear

*Machined stainless vessel cover  
60 inch diameter*

*In-place machining on paper winder slitter roll*

*MMW CNC milling machine (1 of 9 CNC Mills)  
working on titanium material for mold used  
in molded fabric industry*

*MMW repair / rebuild pulp centri-  
screen for paper company*

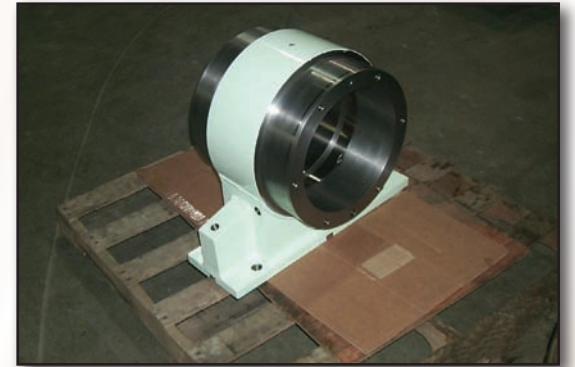

*Built / replaced shaft and  
resurfaced lime kiln trunion*

*MMW completed titanium base with stainless  
screen for parts shaker used in reliability testing*

*MMW manufactured wood debarker support  
trunion assembly complete with  
fabricated bearing housings*

*MMW designed / built 340mm bore  
bearing housing for paper machine*

*MMW 27" DIA CNC romi lathe  
(1 of 13 CNC Machines)*

*MMW large 6' dia cast/machined  
end cover for roll*

*MMW machine tie rods for press at  
large shipbuilder 15'-0" long X 6" dia.*

*MMW fabricated / machined vessels for  
cooling chambers in mining industry*
